Hello Waves Kids Parents!

I am very excited to tell you about the discipleship resources we have been using in Waves Kids Church over the past couple of months. It's all delivered through an app called The Bible Engagement Project. Today, we completed **Volume 2, Session 4: Moses and the Burning Bush**. For weeks, I have been saying that the app was on its way for you to access, and I'm so glad to report that **it's finally here!**

In addition to the teachers using this FREE curriculum to bring your children quality Bible teaching each week, there are advantages for **YOU** too! With this app you can:

- Access family devotions that tie in directly with each week's Waves Kids Church lesson
- Connect with other LHC parents in the community group that was created for Waves Kids (see link below to join!)
- Start your own small group for adults or youth with the FREE resources included in the app (You could launch your own Life Boat!! 😊)
- Access the entire Bible
- Take notes

To get started, I encourage you to please visit your app store on your device and download the Bible Engagement app. Once downloaded, **use invite code DEVVMM** to join our **private, WAVES KIDS parent group** so that we can connect with one another! <https://app.bibleengagementproject.com/i/DEVVMM>

Please note: Going forward, I will no longer be providing physical handouts at check-out after church. This app and our community group will replace those so we can streamline communication with one another. Please let me know if you have any questions or if I can serve you in any way!

All for Him,
Happi
